About the Starter Kit

The kit is a sweet deal - just pick out \$125 of product for only \$99 - and no shipping!

Most important - whether you want to be an enthusiast discount shopper and take advantage of the 20-25% discount OR whether you want to have a business, Stampin' Up! has a place for you. There is never a requirement to hold a class, teach a workshop or sell to others. You will not be pressured by me or Stampin' Up!

I became a Stampin' Up! demonstrator in October 2013 and for the first 2-1/2 to 3 years I was happy with my discount. Then I started holding craft days with classes and I found out I loved watching others discover their creativity - especially those who thought they weren't creative! I've made wonderful new friendships with both customers and sister demonstrators.
